REDEFINING EXTREMELY PERSONALIZED FURNITURE. YOUR IDEAS. OUR CRAFTSMEN.

Welcome to our latest edition of fashion-friendly furnishings! You should have the luxury of being able to choose standard or custom furnishings that reflect your personality, vision, and style.

We believe custom means so much more than a few color and wood changes. It literally means several million choices of styles, sizes, colors, finishes, hardware, fabrics, and more. Additionally, if you cannot find what you're looking for, please contact an authorized Keystone Collections interior designer or retailer. If you can imagine it, there's a good chance our talented artisans can build it.

Go ahead. Browse. Be inspired. Experience something beyond the ordinary. It's our intention on the following pages to engage you in a new way that offers fresh ideas and inspiration.

Thank you for the opportunity to help you create a living space that reflects who you are and how you live.

IF A JOB'S WORTH DOING
IT'S WORTH
DOING
RIGHT

Nearly three decades ago, in a small workshop near Myerstown, PA, Dad crafted his first dining chair. One of his time-proven sayings was "If a job's worth doing, it's worth doing right". His commitment to excellence in design, functionality, and craftsmanship created the benchmark of quality for which Keystone Collections is known.

As a privately held family owned and operated company, we don't have shareholders to please – just you, and we prefer it that way. Today, we build on a family legacy that allows no compromise in the areas of quality and integrity.

We are extremely blessed to have a talented management team and craftsmen who hold themselves mutually accountable to exceed our customers' expectations of quality and service.

Most important of all, we thank God, who has blessed us with spiritual and physical blessings so abundantly in so many ways. From our family to yours, we consider it a privilege to help you experience the warmth, beauty, and style of solid hardwood furnishings.

/ THE MARTINS /

MADE IN THE USA

100% of our furniture is made right here near Myerstown, PA. For us, this isn't simply a novel marketing endeavor. It's a practical way for us to retain greater control over quality, costs and a reduced carbon footprint. Much of our lumber is harvested from the Appalachian Mountain region of the USA by vendors who are adhering to sustainable forestry principles on both public and private timberlands. Our local talented craftsmen adopt the latest innovations while sustaining time honored techniques – achieving meticulous attention to detail in every piece of furniture they produce. We consider their creativity and skills invaluable to the craftsmanship of our furnishings. Choose Keystone – bring the excellent American heritage of furniture making right into your home while supporting American jobs and products.

HANDS OF KEY STONE

We believe true craftsmanship entails creating furniture with care, purpose, and passion. It's a quality that needs to be continually refined, practiced, and improved upon.

We all love beautiful furnishings that speak of great form, function, and finish. Our attention is attracted to furniture that has been lovingly crafted, built with care and passion, and presented with the sort of accomplishment that befits a marvelously well crafted masterpiece. True craftsmanship also realizes the great importance of working with organic simple forms to make the functional beautiful.

It's in this spirit that we're creating items of exceptional quality and durability. We want ours to be the furniture that will endure, in all senses of the word. And we want you to personally be able to experience the elements of excellence when you buy Keystone furniture.

What if you could end all those searches of online catalogs and websites? Instead, send pictures or draw just what it is that you imagine. You won't have to compromise your vision for that new space, and the quality of your furniture will no longer need to be inferred by those website photos. No longer do you need to fear that the specific item you sourced last year will take months to acquire or, worse yet, be a discontinued item.

To you, perhaps more than anything, cost may be the most intimidating facet of customized furnishings. You may consider it an exclusive process that carries a high price. As it turns out, many times a custom piece can be built for comparatively the same price as an equivalent model in a high end furniture store.

Ready to give it a try? Talk to our Keystone design associates to discover the advantages and simplicity of customized furnishings.

YOUR IDEAS. OUR CRAFTSMEN. TOGETHER WE CAN DO IT.

ANTIQUED AND SO DISTRESSED ABOUT

Just as people with a past are interesting, so is furniture that looks as though it has a story to tell. This well-worn, loved, aged and antiqued look on furnishings recalls a time when things were made to last and had real value that was appreciated through the generations. Our artisans painstakingly recreate this look through multi-step antiquing processes that duplicate the time worn character and age marks of genuine antiques.

We strive for a high level of authenticity that is not found in mass-produced so-called "distressed" furnishings. In fact, our attention to the smallest details of authenticity is the reason that the finishing process on these antiqued items takes twice as long to create as our regular finishes.

By choosing one of our seven popular antique finishes, you'll determine how "aged" your furniture will appear. These finishes can include wear-through, eased edges, indentations, hand planing, hand burnishing, and hand rubbed glazing. In addition to our seven antiqued finishes, you can express your own creativity by combining more than one distressed option on the same piece of furniture.

TURN ON THE COLOR

What color is your happy place? Just maybe it's an alchemy of shimmer or a perfect balance of earthy hues. Perhaps you crave bold hues spun and sampled together from urban influences or the lush shades of a tropical rainforest?

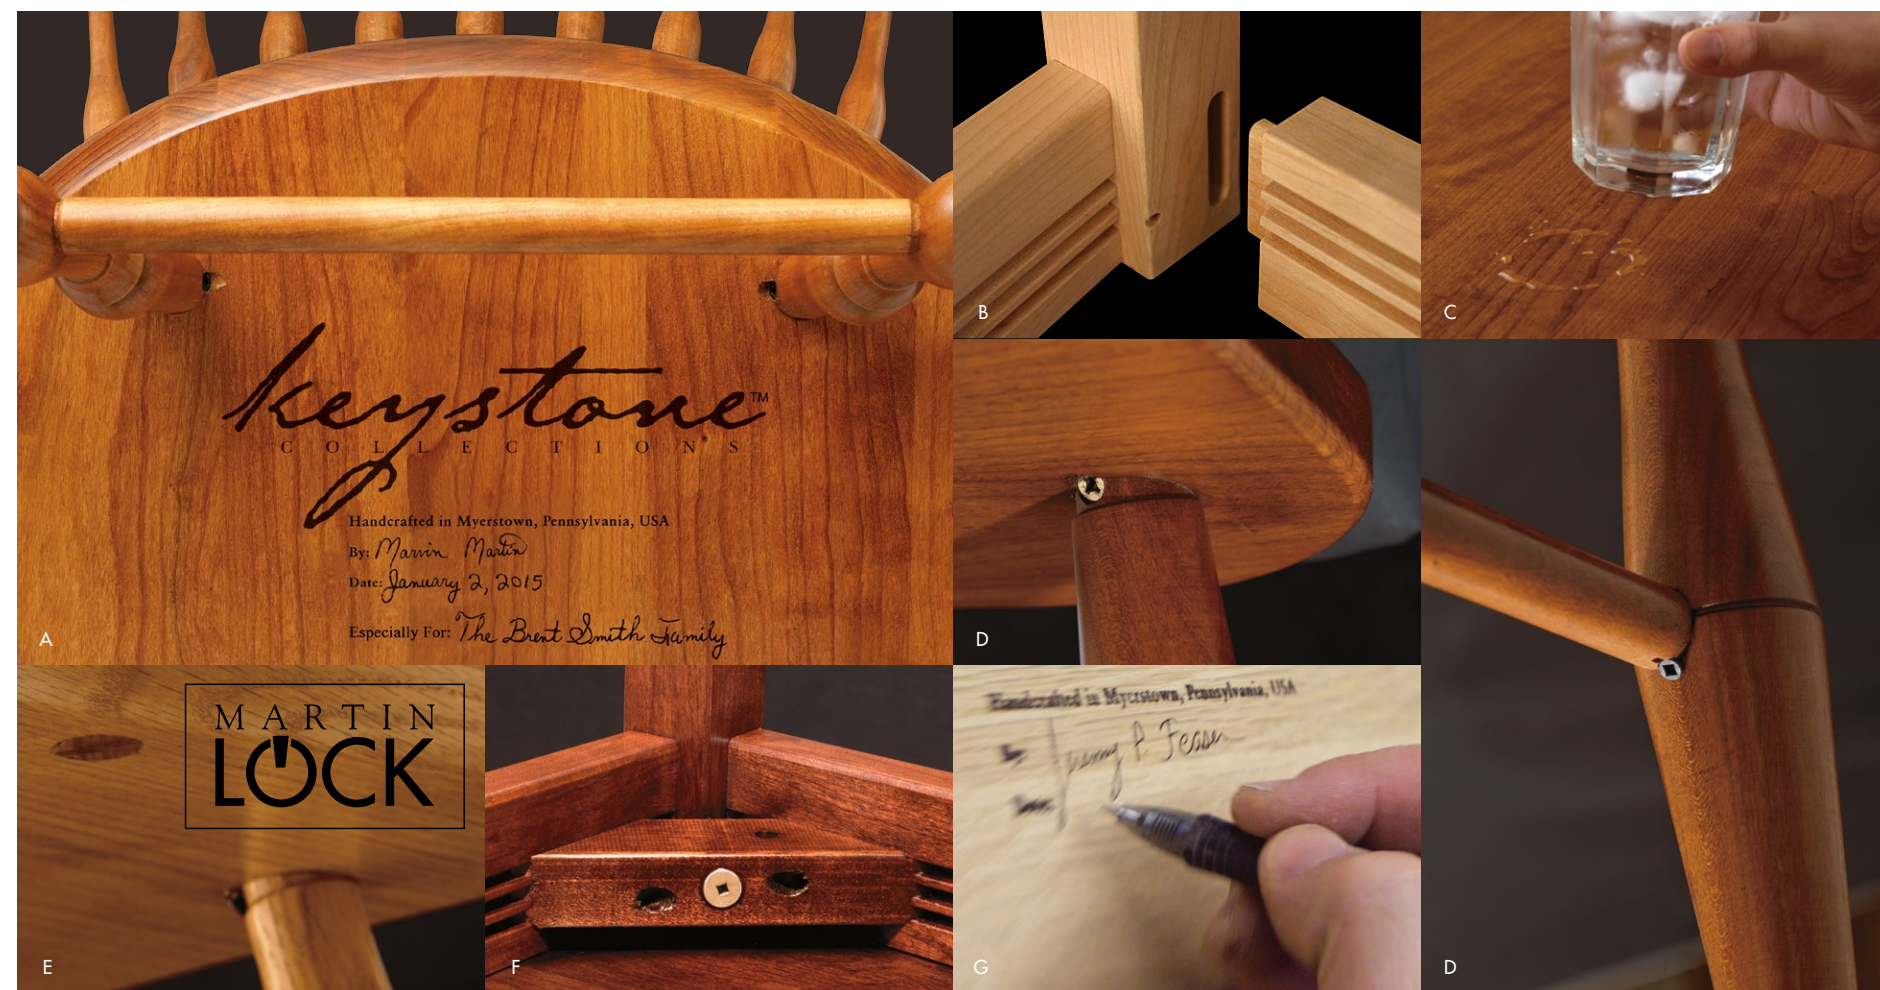

Go ahead—the world is your paint box, and you're the curator. Using colors on your furniture that speak to you and combining them in personalized fresh ways will make your furniture uniquely yours. Your way.

Whatever tones light up your personal spectrum, our extensive color palette of over 250 colors and textures can help you find them. Additionally, if they're not found in our standard colors, our special match program will allow you to create your own color – expressing your very own creativity.

CHAIR

FEATURES

A » EVEN THE UNDERSIDE

Another one of our trademarks. In addition to eye appeal, finishing the underside helps protect your chair from seasonal changes, cracking and warping. Personalize it – optional personalization seals your chosen wording beneath our premier finishes, to permanently identify it as the prized family heirloom your furniture will become. It is also a great way to personalize a gift!

B » CONNECT THE PIECES

Many of our chairs make use of super-strong mortise and tenon joinery, an age-old woodworking technique that has never been improved upon.

C » FINISH FOR THE FINEST

Our hand applied, custom formulated, multi-layered colors and varnishes produce a depth of clarity, beauty, and silky smoothness seldom experienced with today's furniture. Using up to 20 intensive finishing processes, our finish is tough and durable. With this protection, it's no surprise that many spills can be wiped up with no permanent stain or damage. With proper care, your furniture will continue to look as rich as the day it was made.

D » IRONCORE CONSTRUCTION

In addition to precision fitted parts, our extra step of inserting a screw through the legs and stretchers assures you a life-time of trouble-free, wobble-free chairs.

E » MARTIN LOCK

Our exclusive, innovative construction detail on the wedged tenons helps the joints to remain tight. Another reason we can give a lifetime guarantee on all our chairs.

F » BACKED INTO THE CORNERS

Rugged, triple grooved corner braces combined with specially formulated glue and industrial strength lags give you more than a life-time of durability, service, and functionality.

G » AUTOGRAPH TIME

It shows we care! The personal connection with commitment. When your furniture is completed and inspected, each piece receives our Keystone Collections insignia, and the craftsman who built it signs and dates it—the beginning of an heirloom, and to us, a mark of integrity and excellence!

MORE IS BETTER

Today's modern adhesives make chairs stronger than ever. "Finger Jointing," the process of cutting grooves in our chair skirts and corner braces, enables us to apply more adhesive and achieve tighter joinery, and we back that up with industrial strength screws and lag anchors.

ON THE LEVEL

We know our chair legs are on the level, because after assembly, we square them using an amazing precision machine our father made! This extra step provides seating comfort you can relax on.

STICKY SITUATION

If early furniture craftsmen had our glue, there would be a lot more antiques! Our special formulation goes beyond strength and longevity—we build in a little elasticity that allows joints an imperceptible bit of elasticity, keeping the joinery in your chairs tight, wobble-free and functional for years to come.

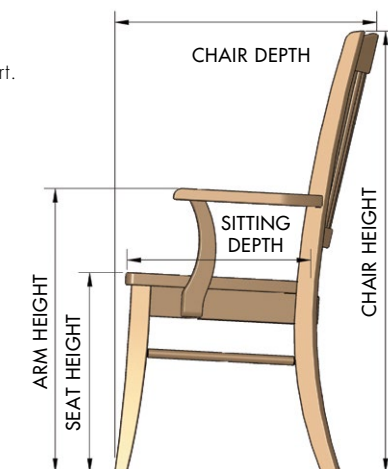

"FITTED" SEATS

Scooped shaped seats provide optimal seating comfort.

CHAIR DIMENSIONS

Chair measurements are listed with each chair in this format:

W = overall chair width
 D = overall chair depth
 H = overall chair height
 SD = sitting depth
 SH = chair seat height
 AW = width between arms
 AH = chair arm height

TABLE

FEATURES

A » PERSONALIZE IT

Our optional personalization seals your chosen wording beneath our premier finishes, to permanently identify it as the prized family heirloom your furniture will become. It is also a great way to personalize a gift!

B » LET IT SLIDE

Our robust, precision wood slides are engineered for strength and for ease of opening your table to add leaves.

C » MIX THEM UP

Tired of ill-fitting, numbered leaves that always need to be placed in your table a certain way? Our precision-made table leaves are fully interchangeable – simply place them in any order you choose, and they will fit beautifully in your table.

D » FINISH FOR THE FINEST

Our hand applied, custom formulated, multi-layered colors and varnishes produce a depth of clarity, beauty, and silky smoothness seldom experienced with today's furniture. Using up to 20 intensive finishing processes, our finish is tough and durable. With this protection, it's no surprise that many spills can be wiped up with no permanent stain or damage. With proper care, your furniture will continue to look as rich as the day it was made.

E » YES, EVEN THE UNDERSIDE

It's the only way we do it! In addition to eye appeal, finishing the underside helps to protect your table from seasonal changes, cracking, and warping.

F » WE'VE GOT YOUR NUMBER

Unlike mass-produced furniture, we don't start the construction until we receive your order. Then we assign a serial number to your furniture that helps us hand-build your piece exactly the way you want it. Years later, we can match your exact style when you add complimentary pieces to your collection.

G » ON THE LEVEL

Adjustable leg levelers on our table legs and feet compensate for uneven surfaces in your dining area. No need to worry about uneven floors.

H » SUPPORT GROUP

Braces are screwed at intervals along the table skirts for extra internal strength and durability. Of course, they are from the same hardwood as your table and receive the same finish.

I » WE CUT CORNERS

Our unique dovetail joining holds the skirting corners tightly to ensure these corners will not gap open, even after many years of use.

J » ALL ACROSS THE BOARD

The subtle art of hand-matching wood for grain and color is a neglected and forgotten art in most of today's furniture. We employ this painstaking process to the skirting of select tables, allowing you to experience the absolute true beauty of visual unity and fine craftsmanship.

K » AUTOGRAPH TIME

It shows we care! The personal connection with commitment. When your furniture is completed and inspected, each piece receives our Keystone Collections insignia, and the craftsman who built it signs and dates it—the beginning of an heirloom, and to us, a mark of integrity and excellence!

L » BACKED INTO THE CORNER

Our table are designed to prevent wobbling, because of our rigid corner block assemblies, adhered with our special glue and fastened to the skirt with more screws. We use two industrial strength lag bolts for even more rigidity.

HUTCH

FEATURES

A » THROUGH AND THROUGH

The Ultimate Drawer! Our six piece drawers feature dovetailed joints front and back. We do not substitute a lesser grade of wood in our drawers. For example, in your cherry buffet, your drawer sides will be handcrafted of solid cherry. Utilizing time-proven and labor intensive construction methods, we guarantee our drawers for life.

B » INSIDE AND OUTSIDE

We admit to being obsessive about details. And that attention to detail goes far beneath the surface. Even though you won't see them often, our drawer backs and bottoms are finished, to prevent warping and to ensure you a life-time of trouble-free service.

B » EASY DOES IT

Our standard heavy duty and dependable drawer slides are concealed beneath the drawer, and fully extend to allow you to view everything in the drawer. These soft-close slides allow the drawer to easily self-close with just a touch. Rest assured that these slides will provide you with a life-time of dependable operation, as they feature a static load rating of 100 pounds and have been tested for 100,000 open-close cycles.

C » OVER THE TOP

Our hutch tops and backs receive attention in finishing and dedication to excellence. This protects your piece from seasonal changes, cracking and warping. It is the only right way for the Keystone Collections!

C » INSIDE THE BOX

They are fitted inside the wood frame, not simply fastened to the surface, so they provide extra strength and rigidity to the entire cabinet.

D » FINISH FOR THE FINEST

Our hand applied, custom formulated, multi-layered colors and varnishes produce a depth of clarity, beauty, and silky smoothness seldom experienced with today's furniture. Using up to 20 intensive finishing processes, our finish is tough and durable. With this protection, it's no surprise that many spills can be wiped up with no permanent stain or damage. With proper care, your furniture will continue to look as rich as the day it was made.

E » PIN IT DOWN

Dowel Pins are another extra quality step we take to enhance strength and durability.

F » PERSONALIZE IT

Our optional personalization seals your chosen wording beneath our premier finishes, to permanently identify it as the prized family heirloom your furniture will become. It is also a great way to personalize a gift!

G » JUST A TOUCH

A simple touch and it's on! Recessed lighting combines with concealed hinges to keep the focus on the woodwork by reducing eye clutter. Touch lights are especially convenient when you just don't have a free hand!

H » IN THE GROOVE OF THINGS

Our glass shelves with grooves feature a hardwood front edge that adds aesthetic appeal.

H » INNOVATIVE INTERLOCK

Our hutch backs are made from the same solid hardwood as the rest of the cabinet, joined with tongue and groove joints for strength and perpetual beauty.

I » NO TIPPING ALLOWED

Protect your family and make your furniture safer by installing our (supplied) restraints to help prevent accidental tip-over.

J » AUTOGRAPH TIME

It shows we care! The personal connection with commitment. When your furniture is completed and inspected, each piece receives our Keystone Collections insignia, and the craftsman who built it signs and dates it—the beginning of an heirloom, and to us, a mark of integrity and excellence!

K » FLOATING AROUND

Solid wood floating panels are unstressed by seasonal changes, and actually float within the frame. Embedded soft rubber spacer balls in the frame of all doors hold the door panel in place, absorb vibrations, and alleviate the potential for splits and cracks.

BED

FEATURES

A » HEAVY-DUTY MATTRESS SUPPORT

Each bed is equipped with five finished hardwood slats and three supports with adjustable levelers. Giving strength where it's needed most, this provides stability and support for your mattress.

B » CARE LIGHT

No more stumbling or fumbling. The Optional Care Light is a motion-activated night guiding light designed to provide soft white light when a person steps out of bed at night. With no wiring required, simply insert batteries and attach to any of your bedroom pieces.

C » "NO ROCK" SOLID BED ASSEMBLY

The in-line industrial lag bolt and dowel pin (not seen) assembly between the bed side rails, head board, and foot board, makes for a "no rock" joint and quiet, peaceful sleep.

D » WE'VE GOT YOUR NUMBER

Unlike mass-produced furniture, we don't start the construction until we receive your order. Then we assign a serial number to your furniture that helps us hand-build your piece exactly the way you want it. Years later, we can match your style when you add complimentary pieces to your collection.

E » PERSONALIZE IT

Our optional personalization seals your chosen wording beneath our premier finishes, to permanently identify it as the prized family heirloom your furniture will become. It is also a great way to personalize a gift!

F » DOVETAILED SLATS

Finished hardwood bed slats fit securely in their corresponding metal slat holders, preventing the side rails from bowing.

G » FINISH FOR THE FINEST

Our hand applied, custom formulated, multi-layered colors and varnishes produce a depth of clarity, beauty, and silky smoothness seldom experienced with today's furniture. Using up to 20 intensive finishing processes, our finish is tough and durable. With this protection, it's no surprise that many spills can be wiped up with no permanent stain or damage. With proper care, your furniture will continue to look as rich as the day it was made.

H » FINISHED BACKS

It's the only way we do it! In addition to eye appeal, finishing the backs of your bedroom furniture helps to protect it from seasonal changes, cracking and warping.

DRESSER

FEATURES

A » ULTIMATE DRAWER

Our standard six piece drawers feature dovetailed joints front and back. We do not substitute a different specie of wood in this drawer. For example, in your cherry dresser, your drawer sides will be handcrafted of solid cherry. The drawer fronts are a solid single piece of wood (except quartersawn white oak) and are grained matched. Utilizing time-proven and labor intensive construction methods, we guarantee our drawers for life.

B » ADDITIONAL STORAGE

Additional storage is available on select styles with our felt-lined "hidden" drawers – uniquely integrated into the molding detail for a clean, uncluttered look.

C » FINISHED AND SCREWED CABINET BACKS

Finished cabinet backs are full size, inset and screwed in to place – locking out dust, dirt, and adding rigidity to the overall piece.

D » FINISH FOR THE FINEST

Our hand applied, custom formulated, multi-layered colors and varnishes produce a depth of clarity, beauty, and silky smoothness seldom experienced with today's furniture. Using up to 20 intensive finishing processes, our finish is tough and durable. With this protection, it's no surprise that many spills can be wiped up with no permanent stain or damage. With proper care, your furniture will continue to look as rich as the day it was made.

E » DUSTPROOFING

Our full-size panel in the bottom of all our cabinets helps to keep your belongings dust free.

F » WE'VE GOT YOUR NUMBER

Unlike mass-produced furniture, we don't start the construction until we receive your order. Then we assign a serial number to your furniture that helps us hand-build your piece exactly the way you want it. Years later, we can match your style when you add complimentary pieces to your collection.

G » EXCELLENT DRAWER OPTION

Our optional five piece drawers feature dovetailed joints front and back. The box is crafted and finished in natural red oak while the integrated drawer front will match the case.

H » GRAIN MATCHING

The subtle art of hand-matching wood for grain and color is a neglected and forgotten art in most of today's furniture. We employ this painstaking process to the drawer fronts of our furniture, allowing you to experience the absolute true beauty of visual unity and fine craftsmanship. This feature is exclusive to our Ultimate Drawer.

I » BEVELED GLASS

Beveled Glass is a standard item on all of our mirrors, allowing an extra dimension of depth and clarity.

J » EASY DOES IT

Our standard heavy duty and dependable drawer slides are concealed beneath the drawer, and fully extend to allow you to view everything in the drawer. These soft-close slides allow the drawer to easily self-close with just a touch. Rest assured that these slides will provide you with extremely dependable service featuring a static load rating of 100 pounds and have been tested for 100,000 open-close cycles.

K » PERSONALIZE IT

Our optional personalization seals your chosen wording beneath our premier finishes, to permanently identify it as the prized family heirloom your furniture will become. It is also a great way to personalize a gift!

L » FLOATING AROUND

Solid wood floating panels are unstressed by seasonal changes, and actually float within the frame. Embedded soft rubber spacer balls in the frame of all doors hold the door panel in place, absorb vibrations, and alleviate the potential for splits and cracks.

CHAIRS AND TABLES

TO SUIT ANY TASTE

Take the compromise out of finding exactly the right dining furniture for your needs. Choose every aspect—wood, style, shape, size, color, and finish. Each piece is an original, custom crafted to reflect your very own personal style and creativity. That's the beauty of handcrafted made to order furniture; it's one of the most stylish forms of self-expression.

DESIGN YOUR OWN SERIES

YOU DREAM IT. WE CAN PROBABLY BUILD IT.

Beauty and function is in the style board of the beholder. Which combo of size, shape, and design details will capture your imagination and reflect your very own ideas of functionality and needs? Not only limited to the dining area, these storage solutions now are growing in fashion towards welcoming surfaces in the hallway, media storage, and, with a bit of customization, even writing desks.

Use these sketches to start personalizing your own storage areas. Don't see what you need? Send us your drawings or pictures, we'll be glad to build one to your requirements.

SERVING UP DESIGN AND STYLE

We believe dining areas are so much more than chairs and a table. They're favorite meals with people you care about, holidays with family and friends. Or, maybe your dining area is even occasionally utilized for a home office. You'll notice we do dining differently. Rather than simply selling table-and-chair sets, we offer a thoughtful presentation of dining tables, comfortable chairs, and functional storage options. All these pieces complement each other to fit your space, style, and the way you live.

CREATING NATURALLY BEAUTIFUL RETREATS

Bedrooms are a personal oasis of escape, relaxation, and rest. It's the place where we unwind at night and wind up for the day. A sanctuary from the bustle and hustle of everyday life.

Whether you prefer traditional décor, modern spaces, or transitional furnishings, our handcrafted beds, accents, and dressers can help you create a bedroom that will be the most inviting place in your home.

MORE CUSTOM FURNITURE AND DESIGN CHOICES: Pages: 120-159

REMARKABLE OCCASIONS

Why are these tables called occasional? Are they an afterthought or only used on occasion? As it turns out, perhaps one of the most neglected pieces of furniture in the home can add new life to an otherwise neglected space. A well placed table or two can make a dramatic difference in a room, rising to whatever occasion is at hand.

Occasionally, or just maybe more than occasionally, you'll need special sizes and options you cannot find in our standard lineup of accent tables. Because we build everything to order here in our shop in Pennsylvania, it's easy for us to build to your special requirements, creating remarkably unique accent items that express your very own originality.

INTRODUCING THE

KATY

SKELTON COLLECTION

We are pleased to introduce the new Katy Skelton Collection. Designed by furniture designer Katy Skelton, each piece features an original concept with a contemporary nod to the classic and unique designs of the mid-century.

FOR THE

LOVE OF

WOOD

Wood as a material is both unique and universal. No other material is as deeply embedded into the life, culture, and history of mankind worldwide, yet every single piece of wood has a uniqueness all its own.

The texture, flexibility, color tone, and durability of different tree species have challenged and puzzled artisans for hundreds of years. Still today, nothing matches wood in beauty or versatility. People are seeking minimal, simple, calm surroundings to counter their frantic, fast-paced lifestyles. Wood's natural beauty and warmth work wonders for creating that atmosphere.

COMMITTED TO RESPONSIBILITY AND SUSTAINABILITY

As stewards of all the resources God has entrusted to us, we believe one of the best ways to conserve environmental resources is to design and manufacture furniture of such enduring quality that it will last for generations. Is there anything more wasteful than disposable furniture?

KEEPING IT CLOSE AND HANDY

All of our furniture is manufactured in Myerstown, PA, using domestic hardwoods that are harvested in an environmentally responsible and economically viable manner. Most of our material sources are located within 350 miles of our manufacturing facility. This creates a substantial savings in fuel and shipping costs, leaving a smaller carbon footprint.

WRAPPING INSTEAD OF WASTING

Most of the products we ship are being wrapped in blankets instead of boxes and cardboard. We've discovered it protects our furniture exceptionally well. Best of all, it dramatically reduces the amount of cardboard, foam, and plastic normally sent to landfills.

USING IT ALL UP

Unusable small wood scraps leftover from our manufacturing processes are used by a neighbor for heating purposes during the winter. Local farms utilize our sawdust for livestock bedding.

BRIGHTEN THE CORNERS

A recently installed, cost efficient lighting upgrade, and motion detection lighting, have created an exceptionally well lit workplace. This enables us to pay closer attention to the details in our craftsmanship.

FURNITURE MAKEOVER

We offer refurbishment services to all customers. This allows you to update your furnishings through a process that requires only a minimal amount of new materials while reducing the amount of items destined for landfills.

THE FINISHING TOUCH

The search for beauty in solid wood furnishings is often lost or found in the finishing process. A premium, durable finish is a work of art. Interestingly, each finished piece of furniture can vary slightly in color. Woods have grain and color variations due to the growth patterns of each tree. The result is a beautiful and truly unique piece. Due to these variations, finishes on individual pieces may not always match.

Choose from over 250 finish, paint, and distressing options in an impressive array of colors and textures. All our materials are custom formulated and meticulously hand-applied by our skilled artisans, using up to 20 intensive finishing processes.

Keystone Premium Finishes produce a depth of clarity, color, and silky smoothness that enhances the warmth and beauty of solid hardwood. Let us create a truly personalized, hand-finished work of art for you.

OVER 200 STANDARD CHOICES AND COUNTING

There are about as many stain and paint colors as there are minds out there to create them! Combining paint or stain colors can provide a vibrancy to furnishings that's unlike anything done in one color. For example, contrasting doors or drawers can produce a more modern touch to traditional design. The choices below are only a few of the hundreds of combinations that can create a unique look on your furniture.

/ PEPPERCORN STAIN - RUSTY SIENNA GLAZE /

/ HYPER BLUE PAINT - METALLIC PLATINUM GLAZE /

/ BERSHIRE STAIN - METALLIC GOLD PAINT /

/ MOCHA STAIN - METALLIC PLATINUM PAINT /

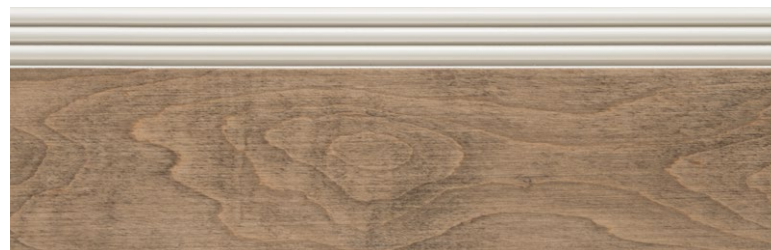

/ EIDER WHITE PAINT - WHEAT GRASS PAINT /

/ EIDER WHITE PAINT - UMBER GLAZE /

/ CHARCOAL STAIN - METALLIC GOLD GLAZE /

/ SANIBEL STAIN - EIDER WHITE PAINT /

CUSTOM COLORS

We can recreate the color of an existing item or family treasure on your new furniture. Provide a sample of what you're looking for, and we'll do the rest!

Because of the natural grain variations and aging process inherent in all woods, recreating colors is an inexact and time consuming endeavor that adds a number of weeks to the order process. You'll receive a sample for approval before we schedule your order. We'll also assign a special identification number, and document the formula in the event you desire the same finish on future furniture.

AUTHENTIC ANTIQUING

ANTIQUITY

Gentle antiquing that includes a small amount of indentations, pin holes and rasp marks with some light wear-through. Hand-rubbed glazing completes this appealing look.

/ CONFIDENT YELLOW PAINT / / CHARCOAL STAIN /

/ SANIBEL STAIN / / HYPER BLUE /

AUTHENTIC ANTIQUING

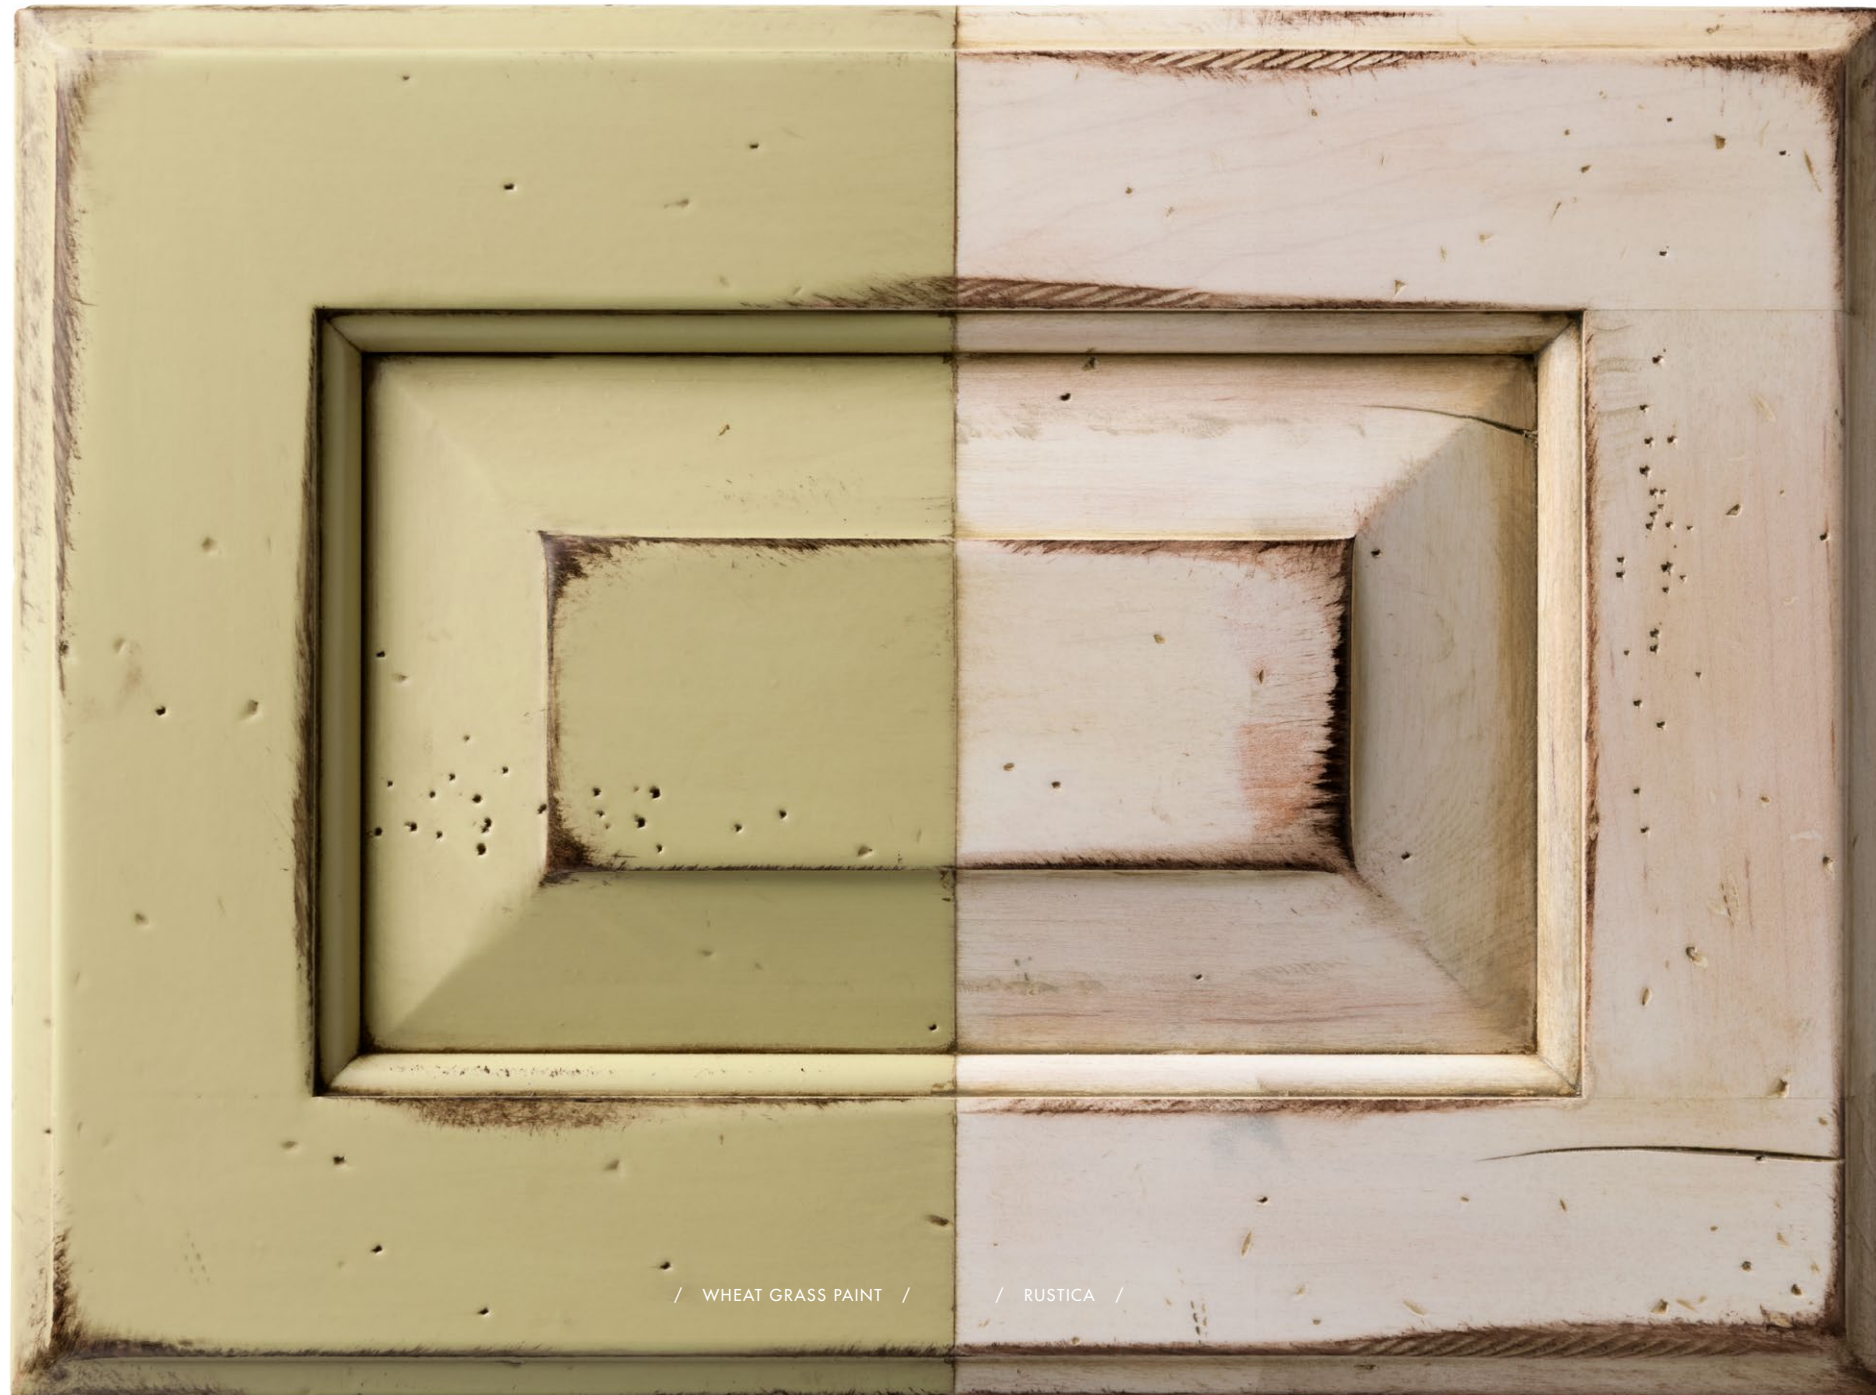

VINTAGE

Moderate antiquing that includes a fair amount of indentations, pin holes and rasp marks with lightly eased edges and some extra wear-through. The addition of hand-rubbed glazing and some light hand-burnishing round out the look.

AUTHENTIC ANTIQUING

LEGACY

Substantial antiquing that includes a heavy amount of indentations, pinholes, and rasp marks with rigorously eased edges, aggressive wear-through, and some simulated cracks. Hand-rubbed glazing with additional hand-burnishing complement this notable effect.

/ WHEAT GRASS PAINT / / RUSTICA /

/ PEPPERCORN STAIN / / METALLIC GOLD PAINT /

AUTHENTIC ANTIQUING

ARTISAN

This specialized process has evolved as a fusion of elements found in our other antiquing packages. A moderate amount of indentations and pinholes, rigorously eased edges with some random gouges, all supplement the hand-rubbed glazing and moderate hand-burnishing that simulate the luxurious patina of a valued antique.

/ RUSTIC QUARTERSAWN WHITE OAK - BERWICK STAIN /

/ RUSTIC MAPLE - SANIBEL STAIN /

KEYSTONE
HAND
HEWN

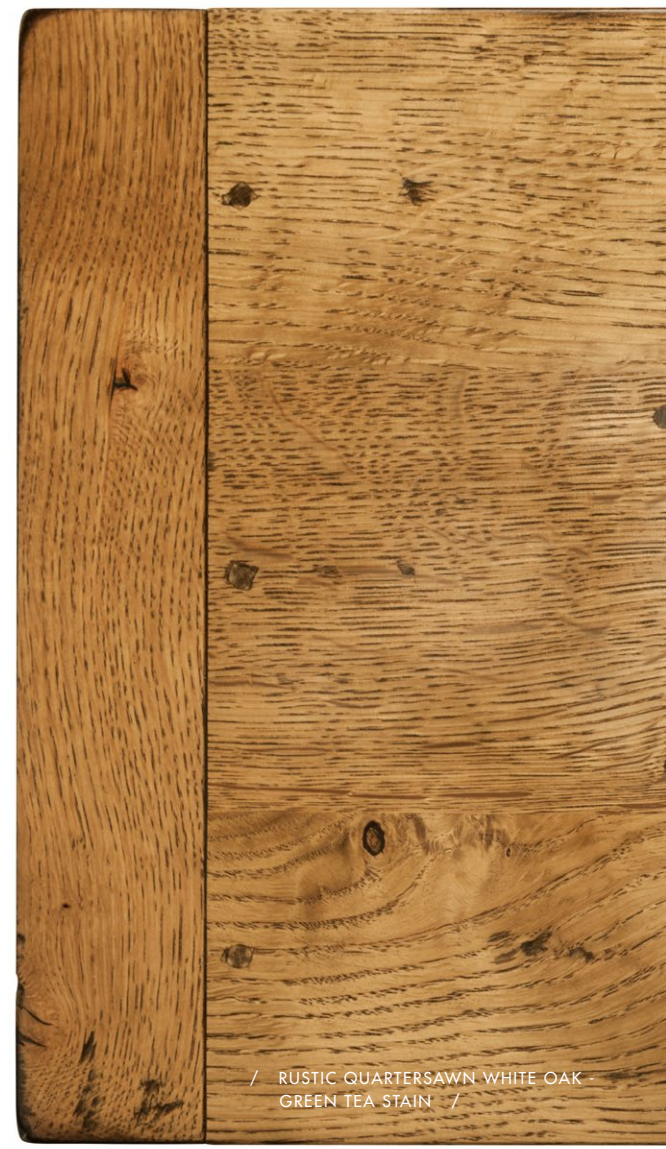

/ RUSTIC RED OAK - OLD PLANTATION STAIN /

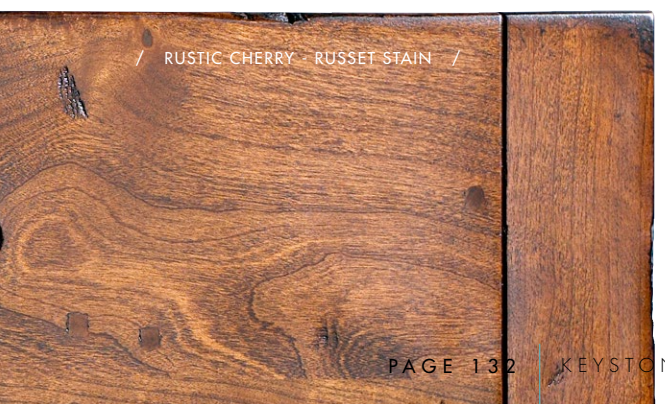

Our handhewn option derives inspiration from the early craftsmen of years gone by who used their broadaxes and adzes to shape a log from an uneven circle to a square beam of wood. Unique tool marks, slices, and scores from this process ensured that no two beams ever looked the same.

Today, we celebrate the time-worn ingrained characteristics of woods such as closed knots, small splits and other natural markings; viewing them as qualities rather than imperfections.

WEATHERED FINISHES

DISTINCTIVE. RUSTIC. APPEALING. VINTAGE.

Medium indentations, eased edges and corners, and random carved out gouges along the edges, and a specialized process that simulates the look and feel of reclaimed weathered lumber. Top this off with a finish that's durable, yet nearly imperceptible, and you have one-of-a-kind furnishings to enjoy! Available exclusively on red oak, rustic red oak, quartersawn white oak, and rustic quartersawn white oak.

SHOWN ON QUARTERSAWN WHITE OAK

FABULOUS FABRICS

Fabrics are one of the cornerstones of great interior design. From brocaded jacquards and lustrous silks, to classic stripes and bold prints, fabric choices come in an almost unlimited assortment of colors and textures. We even give you the option of supplying your own fabric. Our professional upholsterers will be happy to accommodate your special project.

LUXURIOUS LEATHERS

Looking to add well-appointed ambiance and comfort to your dining chairs? Want a look that's timeless and elegant – something that conveys dependability? Today's leather choices can complement virtually every décor with designs ranging from innovative and contemporary to timelessly classic. Leather is a special investment in durability. Quality leathers can last up to five times longer than most upholstery fabrics.

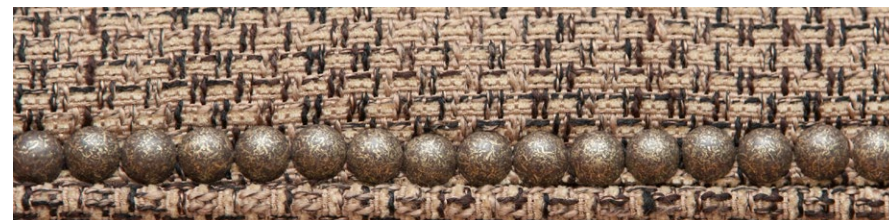

Genuine leather has its own history with natural characteristics such as stretch marks, discolorations, and wrinkles that are to be celebrated as attributes rather than imperfections.

Perhaps you've discovered some exotic leather you would love to use on your chairs, bed headboards and footboards, or benches? Our accommodating procedures give you the option of supplying your own leather for that special touch.

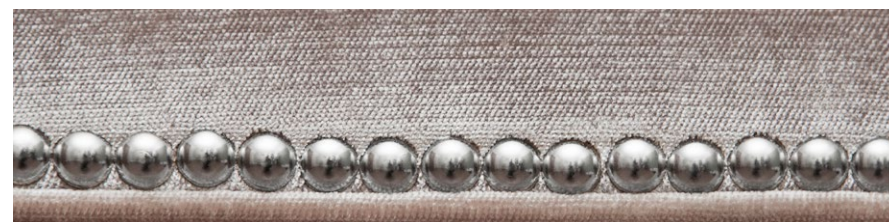

THE ART AND BEAUTY

Nail head trim is a beautiful and distinctive addition to many furniture styles. Adding this type of trim is not an easy task. The work is slow and tedious as each nail is applied one at a time. It takes a true artisan to get everything just right. The standard spacing is shown below. Other patterns and placements are available as custom options, allowing you to create a unique look that is an expression of your individuality.

GLAMOROUS GLASS ENHANCEMENTS

GLAMOROUS

Tailor your furniture to reflect your style with these beautiful decorative glass offerings. Traditional and intricate or contemporary and sleek – We help you create whatever you imagine.

HARDWORKING HARDWARE

Hardware is the finishing touch that can turn the ordinary into extraordinary. Whether your taste runs toward the simple or the sophisticated, choose from our extensive inventory to make your furniture truly personal.

Perhaps you have your own vintage pulls or antique knobs that you would like on your furniture? Our craftsmen would be more than happy to install them.

SKETCH PAD

IF YOU CAN DREAM IT, WE CAN PROBABLY BUILD IT

SEND YOUR DRAWINGS TO A KEYSTONE DESIGN ASSOCIATE AND WE WILL BRING THEM TO LIFE.

Integrity of workmanship gives you peace of mind. Should your furniture fail because of defective workmanship during the life-time of the original owner, we will repair or replace it.

Normal wear, misuse, alterations, commercial use, finish, and seasonal splits are excluded. Transportation is the responsibility of the consumer.

TO ACTIVATE YOUR LIFETIME GUARANTEE, SIMPLY REGISTER ONLINE AT WWW.KEYSTONECOLLECTIONS.COM

GUARANTEED COMPLETION DATES

Your furniture is built to order, to your exact specifications. When you place your order, we guarantee the date when your furniture will be completed.

DESIGN AND DIMENSIONS ARE SUBJECT TO CHANGE WITHOUT NOTICE.

CARE & CLEANING

CONTROL THE ENVIRONMENT

Your furniture responds to changes in temperature and humidity by expanding and contracting. Keep the indoor relative humidity in the 35 to 45 percent range to minimize these effects. Ultraviolet light from the sun and fluorescent fixtures can cause chemical changes in the wood and/or finish. Avoid placing furniture in an area where it will be hit with direct sunlight. Keep it away from direct sources of heating and cooling, and avoid storing it in an attic or cellar type environment.

EFFECTS OF THE ENVIRONMENT

If the humidity moves out of the ideal range, solid wood table tops could expand or contract, causing a gap in the center or at the ends where the two halves meet. Uncontrolled humidity conditions can also cause splits or cracks in the grain pattern and joints of the wood panels. These symptoms are the result of an uncontrolled environment and are not considered defective. If the environment is not controlled, these conditions should be appreciated as an inherent characteristic of solid wood.

AVOID DRY DUSTING / WIPING

Dust and other normally occurring materials in a house contain tiny abrasive particles much like fine sandpaper. When removed with a dry cloth, they abrade the finish and cause tiny scratches. Over time, this will result in changes to the appearance—particularly in the most used areas. Prevent this problem by using a water dampened, soft clean cloth to clean your furniture. The moistened cloth picks up and holds the dust so it's less likely to scratch the finish. Follow-up with a soft, clean, lint-free cloth to dry the surface.

PROTECT THE FINISH

Our products are finished with a premium-grade conversion varnish. Even though this finish is very durable, place mats should be used under rough plates, and trivets should be placed under hot serving dishes. Temperatures of items placed directly on the wood finish should not exceed 150 degrees F. Pad any areas that will be used as a work surface. Permanent markings can be left by pressing too hard with a pen or pencil.

KEEP IT CLEAN

You can easily avoid burdensome cleaning and finish abuse by wiping up spills immediately with a moist cloth so they don't set up or harden. For most routine cleaning, a soft cloth dampened with warm, soapy water will do the trick. The use of well-formulated cleaning products without abrasives can be effective for those tougher cleaning tasks. If using these products, follow-up promptly using warm, soapy water and a soft a cloth.

EASY-CARE PRODUCTS

Avoid polishes or cleaners that contain silicone or ammonia. Lemon oil may be helpful in caring for your furniture.
