Furniture the Way YOU Want It...

One of the most frustrating things about shopping for furniture today can be the big “Sea of Sameness”. There’s lots of bedroom collections, as long as you like brown! Your dining room could end up looking just like your sister-in-law’s or neighbor’s. And, if you need accent furniture, it only gets worse. So much to see, but none of it is just right!

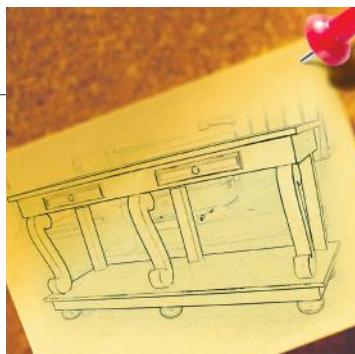

How do you find the perfect combination of style, finish, quality and features? Oh yes, it has to fit the space in your home too. Discover how the customizable Keystone Collections can help eliminate your uncertainties and frustrations in finding the perfect furnishings for your home.

Since each piece of our furniture is built to order just for you, why not get exactly what you want? The choices offered by our craftsmen are almost limitless.

You have the luxury of choosing wood specie, (even select two contrasting woods on the same piece!), dimensions, hardware, finishes, colors, and many other details. Or simply show us a picture and we can build it!

With Keystone Collections, you’ll discover how easy it is to customize our standard designs or even build furniture to your very own designs. Your solid hardwood furnishings will become an integral part of your family traditions, special moments, and memories. Your home will look fabulous because it reflects your very own personal sense of style, not everyone else’s!

Keystone Finish Options

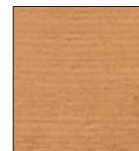

Our hand applied, custom formulated, multi-layered colors and varnishes produce a depth of clarity, beauty, and silky smoothness seldom experienced with today's furniture. Using up to 20 intensive finishing processes, our finish is tough and durable. With this protection, it's no surprise that many spills can be wiped up with no permanent stain or damage. With proper care, your furniture will continue to look as rich as the day it was made.

From our family to yours:

It's been over twenty-five years since Dad (Glenn Martin) built his very first dining chair, hand - turning spindles and legs on a small lathe in a tiny workshop near Myerstown, Pennsylvania. Orders began to trickle in, as Dad's uncompromising commitment to integrity of design and excellence in craftsmanship combined with fine North American Hardwoods slowly built the reputation of the Keystone Collections.

Today, his four sons continue a family tradition as they share his passion for fine furniture designs and the art of handcrafted furniture. We follow his vision of crafting solid hardwood furnishings with enduring quality, timeless design, and lasting value for your family and home.

This couldn't be accomplished without our dedicated team of local craftsmen. We thank them for their skill, expertise, and commitments to our exceptionally high standards as they continually find creative ways to make our furniture even better.

Our gratitude overflows to God, our Creator and Sustainer, for the spiritual and physical blessings He so graciously bestows upon every one. As His stewards, we want to honor and glorify Him by the use of the natural, renewable resources He has placed on the Earth.

Congratulations for selecting handcrafted furniture that reflects your very own style and will become an integral part of your family's special moments and memories.
